Where an application is made and a plan is required, in addition to the fees under the Oregon Solar Installation Specialty Code above, the applicant shall pay an additional plan review fee equal to 25% of the electrical permit fee and 65% of the structural permit fee. The plan review fee shall cover the cost of the plan and specification review, plan review processing and recording. Payment of the plan review fee shall be made at the time of application.
- **Additional Plan Review Fees**  
An hourly fee of \$123 shall be charged for additional plan reviews required by changes, additions or revisions to approved plans (minimum half-hour charge).

**Inspection for Oregon Solar Installation Specialty Code**

*Res. 3037*

*GRC Chapter 10*

- Each additional inspection over the allowable number of inspections provided per permit \$94 per site visit
- Inspections outside of normal business hours \$225 per site visit
- Reinspection Fee \$94 per inspection

## BUILDING AND HOUSING - SOLAR

---

A reinspection fee may be assessed whenever additional inspections are required due to, but not limited to, failure to provide access to the equipment, work incomplete and not ready for inspection, failure to have approved plans on the job, deviations from the approved plans, etc. In those instances where a reinspection fee has been assessed, no additional inspection of the work will be performed, nor will the Certificate of Occupancy be issued, until required fees are paid.

### System Development Charges

#### Parks

Res. 2835

GRC 6.15.030

	<u>Residential</u>	<u>Non-Residential</u>
Current City Limits*	\$3,837 per dwelling unit	\$43 per employee
Pleasant Valley	\$8,137 per dwelling unit	142 per employee
Springwater	\$9,039 per dwelling unit	\$189 per employee

#### Stormwater

Res. 2832

GRC Article 3.40

	<u>Total per DRU</u>	<u>Improvement</u>	<u>Reimbursement</u>
Current City Limits*	\$824	\$321	\$503
Pleasant Valley	\$2,326	\$2,326	
Springwater	\$6,052	\$6,052	

One drainage residential unit (DRU) equals 2,500 square feet of impervious surface.

#### Wastewater

Res. 2756, 2686, 2833, 3085

GRC Article 4.25

System development charges for each user class shall be determined on a dwelling unit (DU) or flow basis. Where there is no user class established for a new customer, the manager shall evaluate and assign the appropriate SDC.

	<u>Total</u>	<u>Improvement</u>	<u>Reimbursement</u>
¾" (1 equivalent DU)	\$5,056	\$3,984	\$1,073
1"	\$17,694	\$13,941	\$3,753
1-1/2"	\$44,990	\$35,450	\$9,540
2"	\$79,365	\$62,540	\$16,825

Meters larger than 2" \$5,056 per DU. See Resolution No. 2833 for methodology.

For connections to the wastewater system with meters larger than 2", the City will forecast the requirements flow, biochemical oxygen demand (BOD), and total suspended solids (TSS). The number of EDUs associated with the requirements will be determined by the following:

$$\text{EDUs} = \left[ \frac{\text{Flow} * 0.681}{250} \right] + \left[ \frac{(\text{BOD}) * 0.184}{161.4} \right] + \left[ \frac{(\text{TSS}) * 0.135}{161.4} \right]$$

Where:

- Flow is the projected maximum monthly average wastewater flow of the User in gallons per day, and
- BOD is the projected BOD loading of the User in pounds per year of the User's effluent, and
- TSS is the projected TSS loading of the User in pounds per year of the User's effluent.

The minimum SDC using this formula is that of a 2" meter.

### Exceeding Capacity

#### GRC 4.05.010

- a. If the City determines the purchased capacity allowance is exceeded, additional SDCs for the exceeded capacity will be charged using the formula above; or
- b. If the City determines the purchased capacity allowance is exceeded, the User may elect to pay, in lieu of the additional the SDCs, a monthly wastewater capacity exceedance charge of 1/24<sup>th</sup> of SDC due as calculated above. The minimum charge shall be 1/24<sup>th</sup> of the flow portion of the SDC per 250 gallons per day of exceeded monthly daily average flow per month. Capacity allowance exceedance of more than 25,000 gallons per day must be approved by the manager. The monthly exceedance charge shall not be applied to the purchase of additional SDCs.
- c. The Manager is authorized to negotiate and approve an agreement with a monitored industrial user that establishes a capacity exceedance charge for a property that has had or anticipated wastewater discharges greater than the discharges authorized by payment of system development charges. The terms of the agreement, including the amount and timing of the capacity exceedance charge shall be based on 1) the City's need for funds for capital improvement projects, 2) impact of the exceedance on the operation of the wastewater collection and treatment system, 3) development incentives and 4) risk factors. The agreement may provide that the exceedance charge can be applied to the payment for additional SDCs at the SDC rate in effect at the time of the agreement.

### Waiver of Reservation Fees for Group Picnic, Sports Facilities, & Special Events *Res. 2869*

The applicants shall submit their written waiver request with their permit application to the manager at least 30 days prior to the date of the requested use. The manager may consider a waiver of all or part of the fees based on these criteria:

1. The applicant provides evidence of financial hardship with the inability to pay, or is a recipient of financial public assistance.
2. The applicant intends to dedicate 100% of the revenue of the event or activities to be held at the city facility for non-profit benefit, or to support community service purposes.
3. The activity or event is planned and/or sponsored by the city, other government entities, or a school district.
4. The applicant enters into an agreement with the city for the applicant to provide maintenance services in lieu of the fees.

### Recreational Services *GRC 6.10.040*

*Res. 2516*

The manager may set program fees using one of these criteria:

1. 100% Cost Recovery: the cost of the program or activities will be established to cover the entire cost of the program including but not limited to staff, equipment, supplies and materials, transportation, program administration, scholarship support or other related program support costs; or
2. Less than 100% Cost Recovery: the cost of the program or activities may be established to cover less than 100% of the cost of the program. The manager may elect to set the individual program or activity fees to cover less than the full cost of the program. This may be done when it is determined that there is sufficient funding through donations or through approved city budget funds that will support the remainder of the costs of the program.

- New single dwelling units (Area of the building footprint)(1.3) + 650 sf  
Round to the nearest 100 sf and convert to a DRU
- Measuring the impervious area \$25

### Stormwater User Charge Control and Avoidance

*Res. 2759*

*GRC 3.60.045*

### Single Dwelling Unit and Duplex Credits

- **Quick Credit.** Single dwelling unit and duplex customers that are served by on-site mitigation facilities are eligible for a credit equal to 27% of the monthly user charge if the customer certifies the following:
  1. No impervious areas, including roofs, walks or driveways, drain, either directly or indirectly, to the street or other elements of the public stormwater system.
  2. The on-site mitigation facilities have adequate capacity to retain the net stormwater from a 10 year, 24 hour storm event.
  3. No floor or appliance drains are connected to the on-site mitigation facilities.
  4. The customer's use of the on-site mitigation facilities meets all city, county, state, and federal water quality requirements.
- **Prorated Credits.** Single dwelling unit and duplex customers who meet the above criteria for a portion of the impervious area on their property will be eligible for a prorated credit. The prorated credit shall be based on the percentage of impervious area that is served by the on-site mitigation facilities.
- **Quick Credits.** Quick credits will take effect at the beginning of the billing cycle that the city receives that credit application from the customer, if the application is received at least 30 days prior to the end of the billing cycle. If the city receives the application after that date, the quick credit will start at the beginning of the next billing cycle.

### Other Credits

- Credits shall be granted for on-site mitigation facilities that exceed city design requirements providing:
  1. The on-site mitigation facilities meet all city, county, state, and federal water quality requirements.
  2. The on-site mitigation facilities are built to city public safety standards or the approved equivalent.
  3. The customer establishes a maintenance program that will maintain the on-site mitigation facility to its operational capacity.
- The following formulas shall be used in calculating the on-site mitigation adjustments for those customers meeting the above requirements:

1. 
$$F = \frac{I}{DRU} \times R$$

2. 
$$C = F \times P \times \left[ 1 - \frac{Q_D}{Q_P} \right]$$

3. 
$$AF = F - C$$

F monthly user fee for the property without credits

I total impervious area on the site in square feet

DRU 2,500 square feet (average amount of impervious area on a residential parcel)

R rate per DRU

C credit amount subtracted from monthly user fee (F)

P maximum credit percentage, 27%

Q<sub>P</sub> peak runoff rate released from the site for pre-development condition

Q<sub>D</sub> peak runoff rate from the developed site with improvements in place

AF adjusted user fee including credits

- The following information must be submitted to the Stormwater Division in order to be eligible for a service charge credit:
  1. An approved drainage plan
  2. Run-off calculations for pre- and post-development site conditions
  3. A complicated stormwater utility user fee credit calculation work sheet
  4. A certification of system capacity by a registered civil engineer
  5. A completed application including a certification by the customer as to the accuracy of the credit application materials
- Once received by the City, the application will be reviewed and if approved, will be reflected in a rate adjustment retroactive to the date the application was received. Where the credit is not approved or requires revisions by the applicant, the City will so notify the customer.

### Application Fee

- There are no application fees for Quick or Prorated Credits.
- The application fee for Other Credits is \$63 plus \$6 per DRU for a maximum of \$1,129.
